MESSAGE

The Organization for the Development of People (ODP) has completed 35 years of yeoman service and has helped thousands of poor and disadvantaged families live a better life – with more choices, self-confidence and self-respect.

I remember this year particularly for the tremendous service done by the ODP team to help the flood victims of Kodagu district with immediate relief and succour during and soon after the floods; and later working for their support in the rebuilding of families and infra-structure after the floods.

During the year, all of ODP's programs and projects have been carried out in a well-planned manner helping poor women, children, youth and farmers to improve their socio-economic conditions. The programs and projects have also helped in conserving and preserving the environment and natural resources to a great extent.

I thank Rev.Fr. Stany D'Almeda for his yeomen services towards the organization, first as the Assistant Director for six years and later as the Director for another six years. I welcome Rev. Fr. Alex Prashanth Sequeira – the new Director and wish him all the best.

I thank all the ODP team members and the donors for their tireless work and unstinted support in bringing about CHANGE in the lives of the poor.

For change to happen – you need to step outside of your comfort zone and change yourself; change your way of thinking and doing. A small group of thoughtful and committed people can change the world And that is what the ODP team has to do. Incredible change happens in your life when you decide to take control of what you do have power over instead of craving control over what you don't.

With Gods Choicest Blessings to each one of you.

Rt. Rev. Dr. K. A. William
Bishop of Mysore & President - ODP

MESSAGE from the DIRECTOR's DESK

This year, 2018 – 19, is a landmark year for the Organization for the Development of People (ODP) in many ways -

- ❖ January 2019 marks the completion of 35 years of ODPs existence
- ❖ The year saw the Mahilodaya Womens Federation complete 30 years
- ❖ In August 2018, there were terrible floods and landslides in Kodagu district – where ODP swung into action for immediate relief to thousands of flood effected families and the organization is still toiling to repair and reconstruct housing and other infra-structure
- ❖ Fr. Alex went to Coady, Canada, for a 5 months course in Development Dynamics
- ❖ The FPO Apex Body was registered as a company called - BHUSIRI Development Foundation

The ODP team has worked tirelessly to continue implementation of all its programs and projects in an impeccable manner, facing and surmounting many a problem to do so. Every team member has worked with commitment and conviction and contributed his / her mite to make the ODP whole.

My very sincere thanks to all the donors, board members and well-wishers, for their faith in the organizations work.

My particular thanks to Rev. Fr. Alex Prashanth Sequeira, Assistant Director of ODP, for sharing my responsibilities; and I wish him all the best in future.

The year 2019 is also an emotional year for me, for I will be leaving the organization in June, an organization where I have spent the last 12 years of my life; an organization which has taught me so much.

I would like to leave you all with this quote, which is one of my favorites -

“You never change things by fighting the existing reality.

To change something, build a new model that makes the existing model obsolete.”

- Buckminster Fuller

This is what ODP has to strive for in future – to build new models based on existing needs and make them work in a practical and sustainable manner.

I pray to God to give the entire ODP team - strength, good health and strong initiative to make the future a bright and beautiful one for the poor and disadvantaged. .

Yours sincerely,

Rev. Fr. Stanley D'Almeda

Director - ODP

a. Drainage and road construction: Palya and Hondarabalu villages-Kollegal

The waste water from the houses was flowing in the streets, thereby causing inconvenience to the people. People were also facing a lot of health problems. This issue was discussed in the central committee meetings. The SHG members took up this issue and submitted an application for construction of drainage. After several dialogues with the PDOs and the GP member's construction of drainage was taken up in the villages.

b. Irregular Power supply – Mangala Village-Kollegal:

Power supply was interrupted quite often in the village. Hence, people of the village were facing drinking water problem, were not able to lift water from the borewells for agriculture, did not have light in the evenings for children to study, etc. The SHG members took up the issue and discussed the same in the CC meeting. The Central Committee then took up the responsibility and organised all the SHGs members for a strike. As a result, members went on strike in front of the KEB office. Police Inspector and the Engineer visited and discussed the problem with the people. Finally, the engineer looked into the issue and solved the problem.

c. Renovation of the community hall at Gudluru - Kodagu:

SHGs were conducting their meetings in this community hall for years; but due to the breaking of the door, the hall was used by the local people, and made dirty. This issue was taken up by the SHGs and the CCs and they had discussions on this with the TP and GP. The President of the Taluk Panchayat then agreed to provide a new door and floor tiles, and repair the entire community hall. With regular efforts of the SHG/CC members work was done and now the members are using the community hall for conducting meetings and other activities.

d. Use and Pay Community toilet at Tamil colony -Maddur:

A community toilet was constructed by the municipality in the Tamil colony for public use and the Municipality instructed people to pay and use it. The SHG members and the community did not agree to pay money to use the toilet and they locked the toilet. The members discussed the issue with the officials and submitted an application requesting to use the toilet without collecting any money. Due to the pressure from the SHG and the community the municipality has given permission to use the toilet without payment. Now, the people of Tamil colony are using the toilet regularly.

e. Safe drinking water, Drainage cleaning and Road repair works-at Mysuru, Kollegal, Chamarajanagr and Mandya

The waterman of Puttarangashetty village was not getting his salary regularly from the Grampanchayat. Therefore he stopped supply of water to the village. SHG members along with villagers visited the Panchayat and enquired about his payment. After discussions, the panchayat released the salary to him and hence the drinking water problem was solved by the intervention of SHG members.

In several other areas also, SHG members approached Grama Panchayats and had several discussions on irregular supply of water, cleaning of water tanks, drainages & repair of roads; and have succeeded in getting these facilities to their villages.

6. Individual Issues solved by SHG members

i) Inter religious marriage at Maddur

An SHG member's daughter was in love with a boy belonging to a different religion. Therefore the family members did not agree for the marriage. At this point the CC members came to the girl's support. They had interactions with the family members and convinced them for the marriage. Finally the family members agreed for the marriage and the issue was resolved.

ii) Harassment by Husband –Sulugodu-Kodagu

One of the SHG members Sulthana (name changed) was mentally and physically harassed by her husband. Sulthana shared this with her SHG members

during a meeting. All the SHG members visited her house and had a discussion with her husband and warned him that if he harasses Sulthana again, they would complain to the police. As the members had visited in a group, Sulthana's husband assured them that he would not harass her again. Now both of them are living happily.

iii) Caste and Income certificate- K Kodihalli Mandya

Rathanamma of Padmavathi SHG applied to get caste and income certificate. Even after struggling for 3-4 months, she was not able to get the documents as the officer was demanding a bribe. As Rathnamma's economic condition was very poor she was not able to afford it. Rathnamma shared this issue with her SHG members during a meeting. The members immediately took up the issue and wrote a letter to the Tahsildar with all the details of the problem. The members met the Thasildhar, interacted and informed him about the bribe asked by his officer. The members pressurized the Thasildhar and succeeded in getting the certificates within a week's time, without paying any money.
